## HUBER´s lösningar för vatten- och avloppsrening

Over several decades we have developed a great number of innovative HUBER products and solutions for centralized wastewater treatment. With over 33,000 machines installed worldwide we have superior expertise and practical experience. Our products and solutions have demonstrated their performance and reliability at wastewater treatment plants of every size - from centralized mega-plants down to smaller semi-centralized and decentralized mini-plants.

We are experts in providing superior equipment for wastewater treatment and offer a wide range of well-proven and innovative HUBER products.

We provide solutions, products and after-sales-services for virtually all treatment steps:

- [Two RoDisc® 20 Microstrainers in Sharjah Permit Effluent Reuse for Irrigation](#)

## Products

- Grov- och finsilning
- Rensgodsbehandling
- Sandavskiljning och behandling
- Slambehandling
- Transportörer
- Membrane Filtration (MBR)
- Microsilning
- Flotation/DAF
- Storm- & avloppsutrustning
- Energiåtervinning från avloppsvatten eller gråvatten
- Produkter för säker åtkomst
